SUMMARY

Web Developer with experience in building full-stack applications using React.js, Node.js, and MySQL. Skilled in creating responsive and user-friendly interfaces, integrating REST APIs, and managing backend logic. Capable of contributing as a React Developer, Frontend Engineer, or Full Stack Developer in fast-paced teams.

SKILLS

- **Frontend:** React.js, React Hooks, Redux, HTML5, CSS3, Tailwind CSS, Material UI
- **Backend:** Node.js, Express.js
- **Databases:** MySQL, MongoDB, Firebase
- **Tools:** Git, GitHub, Recharts
- **Concepts:** Responsive Design, Component Architecture, OOP, DSA, REST APIs, Full Stack Development

WORK EXPERIENCE

Web Developer, LIT Infotech Ltd.   **Nov 2024 - Present**

- Delivered full-stack features for web and mobile platforms using React.js, Node.js, and MySQL.
- Collaborated with designers and backend engineers to implement APIs, improve UX, and maintain frontend scalability.
- Built a responsive eCommerce website with real-time cart, wishlist, and order management using React.js, Node.js, and MySQL.
- Created a secure chat application with real-time messaging, user authentication, and profile features using React, Node.js, and MongoDB.
- Designed and deployed company portfolio websites and mobile apps to showcase services and enable client interactions.

PROJECTS

LemaCare – Care Home Web App

- Developed key UI modules for **Employee Availability, Shift Scheduling, Care Home Needs**, and **Staff Preferences** using **React JS.**
- Created an interactive **Shift Calendar View** to display and manage shifts(pending, assigned) with real-timefiltering capabilities.
- Integrated frontend with backend APIs to **fetch, display, and update data** dynamically across all modules.
- Implemented clean and responsive UI using **Material UI** and **Tailwind CSS** for a seamless user experience.
- Ensured efficient **API interaction** using Axios/fetch to handle shift assignments, updates, and user inputs.

LemaCare – Mobile App

- Built a mobile interface using **React Native** for **employee login, profile updates,** and **shift tracking**.
- Implemented **check-in/check-out** features to track attendance using **real-time database** updates.

Restaurant Management System

- Developed a completely responsive **POS system UI** for desktop using **React JS** to streamline restaurant operations.
- Created multiple interactive screens such as **Sign Up, Sign In, Menu Listings, Order Dashboard**, and **Chef Management Panel**.
- Used **Material UI** and **Tailwind CSS** to design a clean, user-friendly, and consistent interface.
- Integrated **Recharts** to visualize **sales and order** data for performance tracking and analytics.
- Implemented **API integration** to dynamically fetch and update order details, menu items, and user authentication data.
- Ensured **component-based architecture** for reusability and maintained clear **state management** for seamless UI updates.

EDUCATION

Master of Computer Applications (MCA)   **Sep 2022 - June 2024**

Govind Ballabh Pant Institute of Engineering and Technology, Uttarakhand   **6.8cgpa**
- Project on "Smart Landslide Monitoring System Using IOT".

Bachelor of Science (B.Sc)   **Aug 2018 - June 2021**

Hemwati Nandan Bahuguna Garhwal University, Uttarakhand   **6.3cgpa**

ADDITIONAL SKILLS

Soft Skills
- Problem Solving & Debugging
- Team Collaboration & Communication
- Attention to Detail
- Time Management
- Adaptability & Willingness to Learn
- Critical Thinking
- Ownership & Accountability
